All affiliates, including free affiliates, can earn indirect sales commissions on our 2-tier affiliate program. For illustration purposes only, view the pay out on this particular package sold through the affiliate program below. The Resource Center begins with 2 tiers. With a multi-tier affiliate tracking system, not only are you rewarded direct sales to your affiliate link, you also get rewarded for encouraging other affiliates or sub affiliates when their links make sales. As an example:

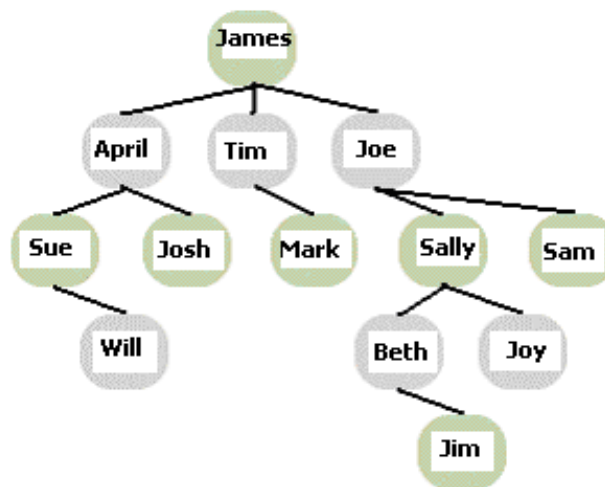

1. James joins your affiliate marketing program and begins earning commissions as a tier 1 affiliate.
2. James tells his friend April who has a related web site about your affiliate program. He provides April with a link to join the affiliate program. When James logs into his account this link identifies his unique Affiliate ID so he will get credit for referring April.
3. April follows James's link and joins the affiliate program. April now earns Tier 1 commissions on all sales made directly from her site. James earns tier 1 commissions on all sales from his site and also earns tier 2 commissions on all sales from April's web site!

4. Now suppose Sue comes along and joins your affiliate program after being referred by April. April will earn Tier 2 commissions on all of Sue's sales.

Affiliate	Tier 1 Per Sale Commission	Tier 2 Per Sale Commission	
James	7.5%	7.5%	
April	7.5%	7.5%	

If April sales a Personal Air Purifier (Protector) worth \$119.00 she earns \$9.00 (7.5%) in Tier 1 commissions, James earns \$9.00 (7.5%) in Tier 2 commissions. The total paid out is 15% in commissions. This example demonstrates 2 tiers our program will begin with. The multi-tier affiliate tracking system is a great way of encouraging your existing affiliates to recruit new affiliates and to reward them for their effort.

The diagram below shows several examples of 2 tier payouts. In the example below, if Beth makes a sale, she earns Tier 1 Commissions on the sale while Sally earns Tier 2 commissions. Sally makes a sale and earns Tier 1 commissions while Joe earns Tier 2 commissions.

***Resource Center Coin of the Month Program- THIS PAYS BIG!**

All Numismatic, graded coins are recognized as premium coins by the highest regarded grading companies in the world. Each coin is encased in a protective clear plastic slab to preserve its brilliance and quality. Resource Center will strive to send the MS 70 Silver Eagle but reserves the right to substitute another MS 70 NGC graded coin.

All coins are certified **"Perfect"** and include a hologram. You have the option to order 1 to 5 coins on Auto-Ship. Notice this is only for Numismatic, graded coins and not for Gold and Silver bullion. We can't think of a better product to buy on a monthly basis than high value numismatic Silver coins. In fact, some of these coins are in such high demand that members are re-selling them for instant profit because they are so hard to obtain.
